Dema DE440-23BT Liquid Level Proportioning Control Auto Fill with Chemical Injector - NM5055 - 87105250
Description

DEMA "Snap-acting" Mixing Valves provide automatic mixing for solution supply tanks. Allows you to have a constant chemical mixture without hand mixing. All valves are magnetically operated except the Model 436-21 which is mechanically operated.

This unit permanently or temporary installed on your carpet cleaning extractor to allow auto fill with adjustable chemical injection. Works with hot or cold water. Float ball height is adjustable. This is a standard auto fill device used in Mytee Products model 7500, Sandia Plastics, Clean Storm, Nautilis, Olympus and Expedition Tile cleaner as well as some SteamBrite truckmounts.
Note
Does not includes any garden hose hook up connections (1/4" FPT) or bracket.
Features

- EPDM diaphragm and stainless plunger for tight seating
- Heavy-duty polyethylene float
- Siphon breakers to prevent back-flow of chemicals into fresh water lines
- Mounting bracket (as shown)
- 8' of Vinyl chemical tube with stainless steel foot valve.
- Standard with 13 different metering tips for exact dilution ration.
- Now standard with plastic bodies for added corrosion resistance.
