International Ozone TZUV-300 Total Zone Ultraviolet Ozone Generator

Model Number: TZUV-300

International Ozone TZUV-300 Total Zone Ultraviolet Ozone Generator

Manufacturer: International Ozone

International Ozone TZUV-300 Total Zone Ultraviolet Ozone Generator
Description
Total Zone TZUV-300 is a lightweight portable ultra violet (UV) ozone generator. TZUV-300 produces 300mg/hr of ozone output designed to treat 1500sq/ft.

Total Zone ultra violet (UV) ozone generators ar e not as powerful as the corona discharge models but have their own benefits. TZ (UV) ozone generators use ultra violet lamps in the 185nm-285nm spectrum to create ozone. (UV) ozone generators do much better in high humid environments. All Total Zone Ozone generators are designed and built for very high ozone output and utmost reliability for the harshest environments.
