HydroForce AC160, Vacuum Cleaner, Vacuum Powered 12 inch Head, Turbocat Zoom With 2 piece 1.5 inc plastic wand

Model Number: AC160

HydroForce AC160, Vacuum Cleaner, Vacuum Powered 12 inch Head, Turbocat Zoom With 2 piece 1.5 inc plastic wand

Manufacturer: HydroForce

The TurboForce dry vacuuming tool is an exciting innovation in our industry. Attached to either a truckmount or portable vacuum hose, the TurboForce uses the available suction to power the vacuum head. Life expectancy of the unit is up to three times that of an electric head, and independent tests have confirmed that the TurboForce maintains comparable cleaning results with electrical heads. An aerodynamically-shaped body allows easy access under beds, chairs, and other furniture.

Other features include:
Automatically adjusts to the carpet pile height

Double-edge cleaning

An agitator designed to pick up dirt right to the carpet cleaning limit

Built to last

The body is molded using high-impact ABS, surrounded with a high-impact bumper guard

The high RPM turbine wheel creates air turbulence required for superior cleaning performance

The support shaft is designed to prevent belt breakage caused by hair, dirt and other debris

A cogged drive-belt which reduces slippage, increases performance, and lasts considerably longer than conventional flat belts

Comes with wand pipe to fit 1.5" hose

Availability: This product was added to our catalog on Friday 08 July, 2005
