...
Heavy Residential Use – Light/Medium/Heavy Commercial Vapor Clean and our Pro6 solo have joined in to offer another choice to meet your needs and budget. The twin to our top selling Pro6 duo offers identical accessories, options and operating specifications with one difference of the commercial 6mm thick single boiler. Once again, all of the features at less than any price of a comparable machine on the market! We have perfected our Pro6's to give you the most for your investment regardless of the operational design that you choose. The functional design stands far above it's comparables in the market place yet continues to offer unbeatable value with this great machine. The Pro6 is the #1 recommended by Pest Control professionals across America and Canada for homeowners and business. The 315° commercial boiler yields quick heat up to 75 psi and good steam regeneration. For over a decade, we have streamlined all of our products to meet our goal of product excellence for many years of use. This makes us happy and our customers even more! Exclusively manufactured in Italy for Vapor Clean and direct to our warehouses

The Pro6 is constructed of materials chosen only to improve the quality, not cut corners and cost of materials. The commercial stainless steel exterior and stainless 18/10 AISI 304 quality boiler speaks for itself. The Pro6 offers such features as an industrial grade detachable hose which allows easier storage and comfort in knowing that your machine is perfectly safe to pull along as you clean. This design is far more solid and durable than other outdated designs with attached hoses. Other features include a pressure regulator knob allowing you to adjust the amount of steam/pressure output for your specific cleaning task. The numbered pressure gauge will give you an exact indication at all times to optimize your cleaning. and ready to ship!

- Factory Authorized Service Center

The Vapor Clean TR6 once again has stepped above and beyond the standards of design and performance. We have perfected the design to give you the most for your investment. The functional design stands above it's comparables in the market place and still offers unbeatable value.

Our Vapor Clean TR6 offers the convenience of the continuous reservoir system - all of the same accessories, stainless boiler, optimum operating specifications with that "one" big convenience of non-stop dry steam cleaning!

In maintaining our commitment to excellence our service and warranty department is led by our "on staff" Electrical Engineer, BSEE, IEEE.

Our Vapor Clean™ TR6 has evolved into an extremely functional, reliable and highly rated machine by our customers. Our TR6 has a one quart sized boiler allows for faster heat up, and quick recovery and maintenance of temperature and pressure in the boiler. The reservoir holds two quarts of water for long time running before adding additional water into the reservoir. The TR6 does have an audible low water beeper as some in this same category do not.

Our TR6 is a convenience and a luxury for the homeowner, but a necessity for the business owner. Please call us with questions so that we may guide you if you are uncertain of your needs.

The TR6 is constructed of materials chosen only to improve the quality, not cut corners and cost of materials. The stainless steel exterior and stainless 18/10 AISI 304 quality boiler speaks for itself. The boiler matches machines that retail for over \$1,000. The TR5 offers such features as an industrial grade detachable hose which allows easier storage and comfort in knowing that your machine is perfectly safe to pull along as you clean. This design is far more solid and durable than other outdated designs with attached hoses. Other features include a pressure regulator knob allowing you to adjust the amount of steam/pressure output for your specific cleaning task. The numbered pressure gauge will give you an exact indication at all times of the performance of your machine to optimize your cleaning. The temperature and pressure is stated as per manufacturers specifications of up to 4.5 bar (65+ psi) and 298 F. boiler temperature.

When operating the machine, it is simple and easy to use. The TR 6 will heat up normally in 6 minutes (fastest in the industry) with regular tap or distilled water. When heated, there is a separate button on the machine to push when ready to clean. The machine emits very little dripping as some more expensive models can, due to the design. The recovery of pressure in the boiler is quick due to 1700 watts and a functionally sized boiler. Continuous Fill models performance will be far more consistent and less time consuming. than larger 3 & 4 liter boilers that lack efficiency.

The accessories all come standard as shown in the photos. The accessories included with this machine are the same accessories that come with "commercial" machines priced in the \$1,000's. The durability and design of these accessories are

>

exceptional. With the exception of course of the "detail" cleaning brushes, which we replace even on the most expensive of machines as these are universal and do wear eventually. Fairly, our detail brushes retail for 3.50 each compared to that of some retailers selling these upwards of \$15 to \$20 each, yet in fact are a longer bristled than most..

Convenience, Durability and Exceptional Quality - Yet, the most affordable heavy duty housing on the market.

Warranty and Return Policy

We feel it extremely important for not only the consumer to understand his/her rights and responsibilities after your purchase, but to also understand our obligations and responsibilities to you as a retailer. We encourage you to check all companies policies before making purchases to reduce possible misunderstandings after your purchase.

Product Warranty Information Our full service warranty includes 1 year Parts & Labor and lifetime boiler and heating element replacement. All service is provided by Vapor Clean. Customer is responsible for all shipping charges. All

>

Sales Final. Used equipment is non returnable but does include a full factory warranty. Please note when you pay with a credit card you are allowing the factory 30 days to build, ship and receive your order.

The factory warrants to the original purchaser that this product, excluding accessories, shall be free from defects in manufacturing and material, under normal and reasonable use for a period of one year from date of purchase.

For this warranty to apply, the owner and/or user must follow the instructions provided herein, with the product. The proof of purchase must be submitted with return of the product for warranty to apply. The product returned to the manufacturer/Vapor Clean Products Inc. is to be shipped prepaid (see exceptions) in a protective carton. The manufacturer advises the purchaser to insure the shipment against possible loss or damage in transit. The manufacturer will not be responsible for items lost or damaged in transit. Purchaser must contact retailer prior to shipping product for repair to receive proper instructions and authorization.

This Warranty is Void if: product is damaged due directly or indirectly to misuse, abuse, negligence, accidentals, repairs or alterations outside our facilities, lack of maintenance, or used not in accordance in the owners manual. The sole and exclusive remedy under this warranty is repair or replacement, at the Manufacturer's option, of any product that proves to be defective in manufacture or materials within above stated period. This warranty is not transferable.

This Warranty is void if residential/home equipment is used in commercial use.

This Warranty is Void if: Product has been operated with substances other than city water, non softened water*, bottled or distilled water. Any substance introduced into the boiler other than acceptable stated waters will void warranty.

The manufacturer or it's representatives is not liable for any consequential or incidental damages (including personal injury, property damage or monetary loss) that may be incurred from purchase, use, or inability/improper use of the product. Maximum liability shall not exceed the purchase price of the product paid by the original purchaser.

Some states do not allow the exclusion or limitation of incidental or consequential damages.

Lifetime boiler warranty, part only, applies on purchases made after 10/01/05. Prior to this date of 10/01/05 a 5 year boiler warranty, part only, applies.

Effective 5/23/08 Heating Elements are included with the lifetime boiler warranty.

Returns are subject to a 25% restocking fee and the loss of the free shipping. All returns shall be store credit only. No money will be refunded to credit card. All shipping charges are the responsibility of the customer.

If any any time the unit breaks, it is the customers responsibility to pay for all shipping charges for repairs and testing.

It cannot be used with Distilled Water.

You must use tap water only with this machine.

Free Shipping/Delivery

Vapor Cleaners listed on are offered with free shipping. This only applies to items shipped to addresses within the Continental United States. Any consumer

>

purchasing outside the Continental US (Hawaii, Puerto Rico, Canada etc.) waives Free Shipping. All shipping charges normally paid by the retailer for possible warranty repairs shall be waived and will be the customers responsibility.

Damage in Shipping

Products arriving with damage in shipping, must be reported to the shipper (retailer) within 3 days of receipt to file appropriate claims with the transporter.

All debts incurred by services rendered by implied contract or product purchases by agreement to the terms and policies put forth by Vapor Clean Products Inc., at the directors discretion may be turned over to a third party agency for collection. Additional fees will be applied for processing such claims.

If you need more steam/vapor we also offer 3400 watt vapor units that produce 100% more steam but will also require 2 power cords on two different breakers.
