With a total of 8 models in polyethylene and stainless steel to choose from. Powr-Flite offers a full line of Wet/Dry Vacuums — with a model to fit the specific requirements of the job, at the price you need! All of our wet/dry vacuums models feature double sealed motor bearings with extra shielding to keep moisture and dirt out of the bearings...the main cause of motor failure. Our wet/dry vacs also feature a self sealing vacuum swivel hose connector that allows the vacuum to be moved by pulling the hose without fear of disconnect. The Powr-Flite wet/dry vacuum line also features two hazardous material wet/dry vacuums that are equipped with a certified total HEPA filtration system with 99.97% HEPA rating of efficiency.

jobs, recovering floor strippers and hard floor cleaners easily. The swivel hose connector allows 360° hose rotation, letting you move the vacuum without fear of disconnect. These wet/dry vacs feature a two stage filtration process with a washable permanent cloth filter bag that keeps dust from circulating back into the air and a super performance pleated paper cartridge filter for more efficient general application filtration.
