Make invisable below

DriMaster Upholstery Tool cleans faster, drier and better...all with less operator fatigue.

- High flow/low residual moisture - super cleaning shears away soil
- No heat loss from atomizing solution
- Never needs a dry pass
- No overwetting or overspray to clean up - solution does not reach foam backing
- Fabrics are left 50% drier than conventional upholstery tools
- Durable - virtually unbreakable
- Lightweight with comfortable handgrip
- No trigger valve for less hand strain
- Cool to the touch
- Low profile design fits in tight spots

Delicate or Tough,
Whatever
the Fabric,
HydraMaster
has the Solution.

HydraMaster’s patented DriMaster™ Upholstery Tool is unlike any tool you have ever used. Using new Jetless Cleaning Technology, it has no trigger valve, no spray jet, and never needs a second drying-pass. The solution is under constant flow, trained by the patented injector bar and slotted vacuum port system. The result is a highly effective cleaning tool that works without overwetting or heat loss. Even narrow areas can be cleaned without any overspray.

Hydramaster DM3-HiFlo DryMaster Upholstery Tool PLUS CMX20 Rotary Wand Package RX20HD (Now NEXGEN 700-041-030)

Less Operator Fatigue

Durable, but lightweight, the DriMaster Upholstery Tool is less than half the weight of other upholstery tools. The new Jetless Cleaning Technology eliminates the need for a trigger valve so multiple holding positions are possible, lowering the potential for hand strain. No second pass, no over-spray, and high-volume water flow all contribute to the efficiency and speed of cleaning.

Cleaning with the DriMaster Upholstery Tool is just plain faster. The high flow – low residual moisture effect of this new technology leaves the fabric cleaner and drier while greatly reducing the chances of damage.

Combine the high performance cleaning of the DriMaster Tool and HydraMaster’s state-of-the-art cleaning chemistry and you’re ready to treat most cleanable fabrics with fantastic results!
