Clean Storm W6000, 12 Volts Portable Electric Marine Winch, 6,000 lbs. Capacity

Manufacturer: Clean Storm

Clean Storm W6000, 12 Volts Portable Electric Marine Winch, 6,000 lbs. Capacity

Description

The Clean Storm W6000 12 Volt Electric Winch provides versatile, heavy-duty pulling power for a wide range of tasks. Rated for up to 6,000 lbs. pulling capacity for rolling horizontal loads and 2,000 lbs. for straight horizontal pulling, this compact, portable winch is ideal for recovering vehicles, trailering boats, pulling stumps, or loading heavy equipment.

Specifically suited for mobile contractors and cleaners, the W6000 makes loading heavy floor cleaning equipment—including pressure washers, truckmounts, and automatic floor scrubbers—up vehicle ramps smooth and effortless. Constructed with a weather- and corrosion-resistant high-impact housing with a built-in molded carry handle, it offers reliable performance on the job site or on the water.

Mount it permanently on a trailer, truck bed, or bumper, or use the included adapter plate to quickly anchor it to a standard trailer ball hitch. For added safety and convenience, the winch includes a handheld remote with a 10 ft. cord, a 30 ft. aircraft-grade steel cable with a 3/4" drop-forged hook, and an optional hand crank for manual operation.

Features

- High Capacity Pulling Power: Up to 6,000 lbs. rolling horizontal stock capacity and 2,000 lbs. straight horizontal pulling.
- Three-Stage Straight Gear Drive System: Smooth, efficient power transmission designed to handle boats up to 18 ft.
- Versatile Mounting Options: Mounts permanently to truck beds, bumpers, and trailers, or anchors to a trailer ball via the adapter plate.
- Equipment Loading Friendly: Perfect for loading heavy industrial tools, pressure washers, truckmounts, and floor scrubbers up ramps.
- Durable Construction: Weather- and corrosion-resistant high-impact housing equipped with a molded carry handle for maximum portability.
- Convenient Controls & Backup: Includes a handheld remote switch with an extended lead, plus a manual hand crank for backup operation.
- Heavy-Duty Wire Rope: Pre-spooled with 30 ft. of 3/16" (5mm) aircraft-grade steel cable and a 3/4" drop-forged hook with safety latch.
