International Ozone RIUV-A18 Air Ducting UV Light Reingen Interceptor Sterilizers

Model Number: RIUV-A18

International Ozone RIUV-A18 Air Ducting UV Light Reingen Interceptor Sterilizers

Manufacturer: International Ozone

Air Duct Mounted / High Intensity
Germicidal / Ultra-Violet / Sterilizer

INTERCEPTOR’s® germicidal ultra-violet light rays in the 254 nanometer wavelength are extremely detrimental to most molds, germs, bacteria and virus. This unit installed in your air conditioning / heating duct system will help to keep your indoor environment fresh and healthy. The INTERCEPTOR’s® high intensity light rays will automatically deactivate or eliminate most airborne contaminates whenever your air conditioning / heating system is running. This technology that has been used in hospital operating rooms for decades is now available for use in your home or business.
