$100 is for webpage design and hosting only.

Example add below:
The 310 truck-mount is the original A.C.E. start-up truck-mount. With its 18hp Kohler engine, we continue to offer these proven winners!

Now couple the 18 hp Kohler power plant to the 36 Roots DSL (dual oil splash) blowers provides 310 cfm for the ultimate residential truck-mount. High pressure washing with heat is not an option with this 4.0 gpm, 3000 psi General Pump, it comes as standard equipment! To help prevent buildup in crucial internal components our last step stainless steel solution injection system fits the bill perfect. This is where our competition falls short. We include a 30 gallon per minute auto pump external, belt driven standard. Now wrap this package in a 100 percent stainless steel frame and you have the ultimate entry level truck-mount.

Price includes: 100 feet vacuum and solution, 50 foot garden hose, 12 inch 2 jet wand, instruction manual, and installation package.

Availability: This product was added to our catalog on Wednesday 09 August, 2006
