Powr-Flite axial fans with full featured performance and they are stackable!
Professional Axial Fan Airmover/Floor Dryer
In Texas we see our share of tornados. The biggest, baddest F5 tornado wind speed doesn’t have a hurricane equivalent…they don’t get that much speed. But we do! On the Fujita Scale, the new Powr-Flite axial Powr-Dryer is a powerful F5! (The Fujita Tornado Scale is the definitive scale to estimating wind speeds within a tornado.) The F5 Powr-Dryer creates an incredible velocity of 3000 CFM for faster drying. Carpets dry quickly under the high-volume, high-velocity airflow. For structural drying you won’t find a more effective drying system. Getting it dry faster means more jobs can be done in a shorter timeframe, which puts more money in your pocket.

Stackable up to 5 high. Built in cord wrap. Optional caster kit also available
Use up to 6 units on a single 15 amp circuit. Built in GFCI outlets allows you to daisy-chain up to 5 units.
