Clean Storm AH38B, Commercial Carpet Cleaning Vacuum Hose 25 ft x 1.5 in ID Dual Cuffed, H294, 8.620-198.0, 260-038-25

Model Number: AH38B

Clean Storm AH38B, Commercial Carpet Cleaning Vacuum Hose 25 ft x 1.5 in ID Dual Cuffed, H294, 8.620-198.0, 260-038-25

Manufacturer: Clean Storm

Clean Storm AH38B, Commercial Carpet Cleaning Vacuum Hose 25 ft x 1.5 in ID Dual Cuffed, H294

Description

The Clean Storm AH38B Commercial Carpet Cleaning Vacuum Hose (25 ft x 1.5 in ID) delivers heavy-duty vacuum suction performance for professional carpet extractors and truckmount systems. Engineered with a double-lined wall construction, this non-crushable and non-marking hose comes pre-equipped with 1.5-inch hose cuffs on both ends for fast, reliable equipment connections.

Features

- Double-Lined Wall Construction: Heavy-duty inner lining provides optimal airflow efficiency while resisting collapsing under high vacuum pressure.
- Crush-Proof Durability: Resists deformation and severe bending, instantly springing back to original shape under heavy commercial foot traffic or equipment weight.
- Non-Marking Exterior: Formulated to prevent scuffing or transfer marks on interior floors, furniture, baseboards, and walls during indoor cleaning jobs.
- Pre-Cuffed Ends: Equipped with factory-installed 1.5-inch threaded vacuum hose cuffs on both ends for fast plug-and-play setup with standard carpet cleaning wands and extractors.
- Smooth Interior Bore: Minimizes friction loss and maximizes vacuum suction over the entire 25-foot length.

Applications

- Portable Carpet Extractors: Compatible with high-psi portable cleaning machines and water extraction units requiring 1.5-inch vacuum lines.
- Truckmount Extraction Systems: Functions ideal as a lead or whip vacuum hose in truck-mounted carpet and hard surface cleaning setups.
- Commercial Tile & Grout Cleaning: High-durability build withstands hot water extraction pressures and aggressive cleaning solutions.
- Restoration & Water Damage Recovery: Designed for continuous high-performance water extraction and drying setups in residential and commercial environments.

Specifications

Clean Storm AH38B, Commercial Carpet Cleaning Vacuum Hose 25 ft x 1.5 in ID Dual Cuffed, H294, 8.620-198.0, 260-038-25

Brand
Clean Storm

Model / Part Number
AH38B

Hose Length
25 Feet

Inside Diameter (ID)
1.5 Inches (38 mm)

Connection Type
Factory-Cuffed (1.5" Threaded Hose Cuffs on both ends)

Hose Construction
Double-Lined Heavy Duty Polyethylene / Vinyl Composite

Crush Resistance
Non-Crushable Flexible Spiral Design

Surface Compatibility
Non-Marking Exterior Wrap

Color Variant
Typically Blue (Color non-guaranteed depending on production batch)

Primary Application
Commercial Carpet Cleaning, Auto Detailing, and Water Damage Restoration

Cross-Reference SKUs

Tips and Additional Information
Prior to initial operation, inspect hose cuffs to ensure secure attachment to hose threading. For optimal airflow and extended service life, store hose in loose loops rather than tight coils when not in use. When connecting multiple 25-foot vacuum hose lengths, utilize barbed hose connectors or threaded cuff-to-cuff couplers with Teflon tape or a secure compression fit to eliminate air leaks and preserve maximum lift performance.
Frequently Asked Questions
Q: Does this hose come pre-assembled with cuffs?
A: Yes, the Clean Storm AH38B includes factory-installed 1.5-inch vacuum hose cuffs on both ends, allowing immediate connection to wands, extractors, or hose joiners.
Q: Is this vacuum hose crush-proof?
A: Yes, it features a flexible double-lined non-crushable rib design that springs back to form if stepped on or pinched during commercial use.
Q: Will the hose mark or scuff baseboards or hardwood floors?
A: No, the hose is constructed with a non-marking exterior material specifically

designed to protect customer property during indoor cleaning jobs.
Q: Can I use this hose with both portable extractors and truckmount systems?
A: Absolutely. It is fully compatible with all commercial carpet cleaning machines, portable extractors, and truckmount setups requiring a standard 1.5-inch ID hose line.
Warranty & Safety Information
This product is backed by a standard manufacturer warranty covering defects in materials and factory workmanship under normal operating conditions. Warranty coverage does not apply to damage caused by exceeding standard temperature/vacuum pressure thresholds, exposure to incompatible chemical solvents, vehicle run-overs, mechanical punctures, or unauthorized physical modifications. Always inspect vacuum lines before high-pressure extraction jobs to maintain safe operation and consistent equipment performance.
