The best thing about the M1200 Clean Storm Tile & Grout Extractor 1665-4865 that makes it unique from other
Tile & Grout Extractors is the fact that it is a much lighter machine and has more vacuum (5 stages instead of 4 stages) than most others. This means you can run longer hose runs and produce dryer and cleaner carpets. The larger 20 gallon per minute auto dump system means you can perform water extraction work too. More robust housing last longer and is more forgiving against damage and accidents. You
