Manufacturer: Hydrotek

Hydrotek SynergisticTruckmount system

Hydrotek Provides full power 3000 psi pressure washing with vacuum recovery. Turn down the water pressure to 1500 psi for tile and grout cleaning, turn down to 500 psi for carpet cleaning, and 400 psi for upholstery cleaning.
Consistent 200 degree F in 30 seconds no mater what surface type you are cleaning.
Auto pump out mean non stop productivity.

Synergistic means the sum of the parts is greater than their independent values added together. This is like saying 2 + 2 = 5
In this example the flood pump vacuum recover performs water extraction and evacuation services.
The pressure washer performs exterior pressure washing surfaces.
Add the vacuum with the pressure washer and you can still pressure wash the outside and offer flood extraction services but now you can also perform indoor carpet cleaning, and tile and grout cleaning.

Sales tax collected in TX and California.
