EFFICIENCY

The plunger type design of the 114 is the most effifi cient way possible to pressurize water. PUMPTEC™ effifi ciency produces up to 20% more pressure or flfl ow for a given power input compared to some competitors’ pumps.
MAINTENANCE & SIMPLICITY
Factory lubricated for maintenance free performance. The only tool needed to completely disassemble the pump to its basic components is a simple hex wrench.
DURABILITY
Durability results from exclusive use of premium materials. All metallic wetted parts (except body) are stainless steel or chemically resistant plastic. The plastic pump body is nearly indestructible compared to pumps made of castings. Precision molded plastic body offers chemical compatibility with a wide variety of chemicals.
