CTI DCI Light 4100:

Pro’s Choice “DCI Light”: (Detection, Chemical Activation, & Inspection). This light comes with 3 separate tubes to accomplish these functions.
1. A long wavelength UV tube for Urine and body fluid Detection.
2. An unfiltered UV tube that emits both UVA & UVB frequencies. It is used to increase the reactivity of Stain Magic or Dynamic Duo giving you incredible power to remove the impossible stains such as Curry, Mustard, Wood Furniture, etc. without using heat.
3. A blue-white bright tube for general carpet inspection.

Marketed under parts: 4100, E1004

Designed to work with optional chemicals below:

Shazaam: Dynamic Duo - Half Gallon Set SBM107

Pros Choice: Stain Magic - 1 Half Gallon Set
