Model Number: M8253

Pumptec M8253 Replaces M53 M10 M100 M9253F Motor Only Frame 34 Fits all Pumpte 204, 205, 207, and 217 Pump Heads

Manufacturer: Pumpte

Factory is sold out of M53, M10 and M100 motors.
This motor has been replaced with the Ametek M8253.
It is a drop in replacement for all three past options.

1 Year Factory Warranty.

Exact same H.P., can size, end bells, magnets and armature, see comparative photo to the right. Only difference is the fan on the outside of the Ametek and the fan on the M8253 is internal.

Used on EDIC new builds for many years.

Does not include the bridge rectifier that converts AC current into DC Current. If you do not have a working rectifier to use with this motor and connect the leads directly to AC (house) current you will damage or destroy the motor. Warranty will not cover this type of damage. If you need to order a rectifier for this motor the following part number is also a live link to that product's page: C-REC-SM

This motor does not have the external fan like the m9253f, the fan is enclosed behind the motor end bell. Supplied to EDIC for their 500 PSI systems.

Thumbnail images shows image with optional mounting bracket (see below)

Motor Only
