Perfect Heat 98830 Upright Extractor

The CFR commercial line Perfect Heat model combine the Perfect Heat system with a powerful electric heater to produce
very hot water that is maintained throughout the cleaning process. No other system can maintain water temperatures as high as Perfect Heat Plus!

CFR commercial line extractors use two very high powered vacuum motors. These motors produce enormous amounts of heat. Perfect Heat technology captures this heat and uses it to heat the water used to clean the carpets. This unique process requires no additional electric power and is very simple and dependable. This process is so unique and so effective that it is being patented.

The CFR commercial line Perfect Heat model combine the Perfect Heat system with powerful electic heater to produce very hot water that is maintained throughout the cleaning process. No other system can maintain water temperatures as high as Perfect Heat Plus!

We conducted laboratory tests of the CFR Perfect Heat and two competitors. These competitors both claim temperatures of over 200?. Here are the real results in a realistic cleaning situation. Each machine was run for ten minutes. They were run in 8 second cycles with 4 seconds of spray and 4 seconds of rest. Every three minutes

Steambrite Supply

CFR 10445A Pro 500 psi Perfect Heat 13 Gal Dual 2 Stage Vacuum Extractor Starter Package Freight Included 98830

there was a 15 second rest. The temperature was recorded at the tip on the end of a 20’ solution hose.

See our website at www.Perfect-Heat.com for full test results.

10452A/10453A SPECIFICATIONS

Tank Capacity
13 gallons

Recovery Tank
11 gallons
