Model Number: NA0825

Clean Storm NA0825, Wand TeeJet Strainer Filter W Check Valve, H46 B267 Ss 100 Mesh
8.725-693.0, GTIN 808224315647

Manufacturer: Clean Storm

Clean Storm NA0825 Wand TeeJet Strainer Filter With Internal Check Valve (located behind spray jet)

Description

For use behind TeeJets. Dripless function utilizing internal check valve. Helps keep jets from clogging and also prevents dripping after control valve is released.

9/16" wide on bottom

3/8" wide on top

3/4" tall

Water flows from to bottom.

Spring holds back water until you have 2-5 psi water pressure to more the ball out of the way and allow for spraying.

Helps prevents drips when not spraying.

100 fine mesh screen.

Strainer and Check Valve

Made for TeeJet Spraying Systems

10 Spring Rating

Body and Cap Screw Made From Brass

Mesh Screen Made From Stainless Steel

Ball Made From Stainless Steel

Helps to Minimize Nozzle Drippings

Fits All TeeJet TPU and Flat back Nozzles
