Important Ordering Note

Display photos are for reference only. Orders are fulfilled by the part number ordered. Please verify your machine parts list, existing switch markings, plug configuration, and electrical rating before ordering.

Why Buy From Steambrite?

- Ships from a real parts supplier, not a random marketplace-only seller
- Multiple OEM cross-reference numbers listed for easier matching
- Ground shipping available by UPS, FedEx, or USPS depending on order size
- Helpful for pressure washer, carpet cleaning, and restoration equipment repair

FAQ

Is this a lighted switch?

Yes. This switch uses a green illuminated lens.

Is this the same as 6-020240?

Yes. 6-020240 is listed as an older/cross-reference part number for Karcher 9.802-451.0.

Can this be used for a burner switch?

It is commonly listed for pump or burner ON/OFF switch use on pressure washer control panels, but always verify your wiring and machine diagram before installation.
