Clean Storm KBV-3 MXF, 3/8in MPT x FPT Brass Ball Valve, 600 PSI, Damtech DBV3M

Steambrite Supply

Clean Storm KBV-3 MXF, 3/8in MPT x FPT Brass Ball Valve, 600 PSI, Damtech DBV3M

Model Number: KBV-3 MXF

Clean Storm KBV-3 MXF, 3/8in MPT x FPT Brass Ball Valve, 600 PSI, Damtech DBV3M

Manufacturer: Clean Storm

Clean Storm KBV-3 MXF, 3/8in MPT x FPT Brass Ball Valve, 600 PSI, Damtech DBV3M
Color of insulated grip is not guaranteed.
Description
Optimized for commercial plumbing, HVAC, compressed air lines, and industrial OEM applications, the Damtech DBV3M ball valve balances performance and longevity. It features a unique mixed-thread configuration with a 3/8" Male Pipe Thread (MPT) inlet on one side and a 3/8" Female Pipe Thread (FPT) outlet on the other, eliminating the need for extra adapter fittings in tight spaces.

Engineered to endure a cold working pressure up to 600 PSI, it features a quarter-turn handle designed for swift manual shut-off and clear line-status visualization.
Specification
Maximum Pressure: 600 PSI CWP (Cold Working Pressure)
Connection Types: 3/8" Male NPT (MPT) x 3/8" Female NPT (FPT)
Operation: 1/4-Turn manual lever handle
Flow Profile: Full port design to maximize fluid capacity and minimize pressure drops
Valve Body: Heavy-duty forged brass for maximum corrosion resistance and structural integrity
Internal Seals: High-performance Viton O-rings paired with Teflon (PTFE) sealing discs for leak-proof service
Ball & Stem: Chrome-plated brass ball with a blow-out proof stem design to guarantee operator safety under maximum pressure
Handle: Plated steel handle enclosed in a heavy-duty, protective vinyl sleeve for a comfortable, non-slip grip
