Model Number: RE099K

Clean Storm Live Hose Reel Jumper Hose Hook Up Kit 15 ft X 1/4in ID RE099K

Manufacturer: Clean Storm

Truckmount Live hose reel kit is a 15 ft 3000 psi 1/4" ID solution hose that has a 3/8" Mip connection on one side and a 90 degree elbow the a quick disconnect on the other. This takes the high pressure water from the front of your truckmounted carpet cleaning machine to the hub of the solution reel. By default we are going to provide a male QD on the solution hose at the 90 degree elbow. If you need a female, please let us know.

The 90 degree fitting is installed next to the male so you can close your van side door while the hose is still hooked to the face of the truckmount.

The 3/8" enlarging bushing is needed because the live reel uses a 3/8" live pressure swivel.

Includes one each of the following items below:

Clean Storm Solution Hose - 15ft Long x 1/4in ID- 3000 psi rated Non marking jacket

Foster: Bretco 1/4in Male Brass Quick Disconnect QD Nipple

>

3/8" Mip X 1/4" Fip Brass Bushing Adapter

1/4" Mip X 1/4" Fip Street 90 Brass Elbow
