DriStorm Goliath Flood Pumper 26gal Four 2 Stage Vacs and Pressure Washer Recovery 120v with Lint Filtration SBM-GO-A SBMGOA 20220803
special order, 2 month wait build time
Description
Quad Vac Flood pumper The Industries Strongest Water Extraction Machine and Electric Pressure Washer Vacuum Recovery!
Ultra tough Fiberglass body for durability.
Fiberglass body is not affected by steam vacuum recovery as plastic housing get soft.
New Larger Flat Lid.
Four 2 stage vacuums (8 stages total will operate 200 ft of 2" vacuum hose!).
Vacuum motors are configured as a pair is in series and then both pairs are in parallel for the best of both worlds of high cfm and high inches of lift.
Primary cord (20 amp) runs (2) vac motors in air series with ball float shutoff and sump pump.
If a secondary circuit is not available, machine would perform on this cord.
Wired with an in-line GFI and cooling fan.
Secondary circuit (15 amp) runs the (2) other vac motor in air series with a ball float shutoff and check valve.
170" of Lift, normally dual 2 stage in series would only achieve 155" of lift but these MaxVac vacuum motor are actually performing 170" in series! This is one of the reasons we chose this set up. (These are not inflated numbers! 42,500 vacuum units (maximum 170 inches of lift X maximum 250 CFM) make this one of the strongest electric machines on the market. Nothing comes close. This machine is impressive when it comes to suction. This machine will run longer hose lengths and dry carpet better than any other electric machine that is operating on two power cords. 30 amp total vacuum system @120 volt = 3600 watts vacuum performance!
50 GPM Stainless Steel Sump Pump with water level sensor (machines automatically dumps the dirty water as you clean for non stop production). Draws only 3.5 amps.Will operate on one 15 amp power cord, will operate on two 7 amp power cords, will operate on two 15 amp power cords, will operate on two 20 amp power cords. Just turn off features in applications where you have less power available.
Dual port water pump out discharge. Toggle back and forth between automatic dumping out a garden hose (for cleaning jobs) or out a 1-1/2" vacuum hose (water extraction jobs), your choice. Switch plate cover will keep your water resistant switch covers in place. Unlike some other brands the clear water protection cover can fall off once the machine gets old or if it gets knocked around. Easily converts into an air duct cleaning machine, tile cleaning machine, carpet cleaning machine, auto detail extractor.
