Clean Storm 8.715-708.0, Cogged V-Belt, 51in Outside Length, BX48

Model Number: 8.715-708.0

Clean Storm 8.715-708.0, Cogged V-Belt, 51in Outside Length, BX48

Manufacturer: Clean Storm

Clean Storm 8.715-708.0, Cogged V-Belt, 51in Outside Length, BX48
Description
Keep your commercial pressure washers and industrial cleaning equipment running at peak performance with the Clean Storm 8.715-708.0 BX48 Cogged V-Belt. Engineered for demanding heavy-duty applications, this raw-edge cogged V-belt delivers superior flexibility, reduced heat buildup, and maximum power transmission efficiency. Its precision-molded cogs allow the belt to flex easily around smaller diameter pulleys without sacrificing tension or durability, making it an ideal direct-fit replacement for Karcher, Legacy, and Shark pressure washer systems.
Features

- Cogged Raw-Edge Construction: Increases flexibility and reduces bending stress for smoother operation on smaller pulleys.
- Enhanced Heat Dissipation: Cogged design dissipates heat quickly to extend belt operational life and prevent premature wear.
- High Torque Output: Delivers superior slip resistance and consistent power transfer under heavy operational loads.
- Direct OEM Fit: Fits perfectly across a wide range of pressure washers using standard BX48 profiles.
