Karcher: M5xjet Deluxe Inj. Adj 3000-4000 Psi - 8.710-472.0 -#13 - 3,000-4,000PSI, 4 to 6 GPM

Manufacturer: Karcher Pressure Washing

Karcher: M5xjet Deluxe Inj. Adj 3000-4000 Psi - 8.710-472.0 - Legacy Shark
Saves time and money! This adjustable nozzle injects and proportions chemicals at high or low pressure without going through your pump, hose, or gun. Includes a built-in downstream injector.
The M-Jet has all the features of the X-JET except it comes with a variable nozzle on the outlet of the nozzle. The M-Jet is best suited for jobs where the zero degree impact of the original XJET is not required. MJET will inject and proportion soaps, chemicals, or other liquids at high pressure without going through your pump, hose, gun or lance. The MJET can project liquids to vertical heights over 40 feet depending upon the capability of your pressure washer.
The M-5 Nozzle works in the same manner as the X-Jet except that the close range nozzle is replaced with an adjustable nozzle that projects chemicals up to a vertical height of 40 feet at the zero setting or an 8 foot fan pattern at 60 degrees by simply turning the adjustable nozzle
The X-JET M5 Includes

- Built-in adjustable nozzle
- 15 proportioners
- Shut off ball valve
- Mushroom strainer
- 12' of suction hose

Nozzle Sizes

- #9 - 2,000-3,000 PSI, 3 to 3.5 GPM
- #13 - 3,000-4,000PSI, 4 to 6 GPM
