Karcher Watermaze Sludge Clarifier Biodegradable Cotton sludge bage- 8.719-191.0

Model Number: 8.719-191.0

Karcher Watermaze Sludge Clarifier Biodegradable Cotton sludge bage- 8.719-191.0

Manufacturer: Karcher Pressure Washing

Karcher: Bag, Watermaze Sludge clarifier, Qty 1, Biodegradable - 8.719-191.0 -

This is a Sludge Bag, it is Biodegradable made out of cotton fiber
Cleaning sludge from the bottom of a collection pit is neither easy nor fun. But the Pit Cleaner makes it bearable. An extended wand is attached to a pressure washer, with a minimum of 1000 PSI. The pressure is channeled so that it creates a vacuum, capable of suctioning mud and sludge from the bottom of a pit or even a pond. The sludge is deposited into a porous collection bag, mounted on a hand truck, where the water drains out and the sludge is allowed to dry for eventual disposal.

Used in two ways:
#8 in thumbnail photo
Also shown being used on photo to the right for high volume water prefiltration (see cart). Water and trash drop into bag and just flow over and out of side to the floor. Roll bag to trash bin with optional cart. (not included)
