Model Number: 221522902

Prorestore Microban Mediclean Disinfectant Spray Plus No Fragrance 4/1 Gallon Case 221522902 Chemspec

Manufacturer: Chemspec

Microban Mediclean Disinfectant Spray Plus Fragrance Free

Ideal for treating air ducts or wherever a fragrance-free disinfectant is required.

Disinfectant Spray Plus Fragrance-Free is a powerful bacteriostat, fungistat, mildewstat and deodorizer. It’s the one product that’s right for multiple applications – water damage restoration, mold remediation and even for use in HVAC systems.

Disinfectant Spray Plus Fragrance Free is not available in California.

In Canada, ask for Microban Hospital Spray. See label for product claims and application instructions.

This fragrance-free formulation is ideal for use in HVAC ducting or wherever the use of the scented version is inappropriate. It's economical, too: one gallon treats up to 1,000 square feet of surface. Use of this product on water losses is recognized by major insurance companies.

Specifications
DSP Fragrance Free (case)

Mixing: This product is ready to use. Do not dilute.

Application: Apply to porous surfaces at a rate of 1,500 square feet per gallon. Spray until moist, brush into carpeting, and allow 10–20 minutes to dry. See label for additional instructions.

For complete instructions and safety data for this product, refer to the User Guide and Material Safety Data Sheet, available under the Documentation tab.

5 Big Reasons Microban Disinfectant Spray Plus is superior to bleach

Microban Disinfectant Spray Plus vs. Bleach

When there are flood events such as those currently in the news, we get a lot of calls about using bleach. Microban Disinfectant Spray Plus (MDSP) is the top choice of restoration professionals for many reasons, but here are 5 key reasons to share with customers and adjusters why MDSP is superior to bleach:

Bleach is quite caustic and irritating - MDSP has a neutral pH and is non-corrosive.

Bleach can corrode metals and damage fiber dyes - MDSP will not damage these surfaces.

Bleach doesn't provide residual protection after initial application - MDSP has both bacteriostatic and fungistatic capability.

Bleach leaves significant amounts of residue that can be quite difficult to remove - MDSP has minimal residue.

Bleach is unstable and can easily emit toxic fumes if improperly
