Details

Solid shaft pumps for belt drive units.

- Set screw for engine shaft
- Durable ceramic plunger with mirror finish
- Stronger crankcase with cooling fins and thicker mounting feet
- Extra-large european made tapered roller bearings for longer life
- Larger oil level sight glass
- Specially die cast connecting rods for quieter operation and longer pump life
- U-seals which allow for up to 185°F inlet water for hot water cleaning, significantly reduce pump maintenance and extend pump life
- Tighter piston rod tolerance for reducing wear and maximizing performance
- Multi-viscosity pump oil for better lubrication and cooler operation
- New and improved check valves for quieter operation and longer valve life

HX3030R.1 - "H" means Hotsy
GX3030R.1 - "G" means Legacy
LX3030R.1 - "L" means Landa
SX3030R.1. - "S" Means Shark
"K" means Karcher so we can sell the G and the S models but they are all the same...
All pumps the same, the only thing that changes is the sticker.
