Chemspec Sapphire Scientific 76-010 Amped Enzyme Booster Additive (12/1 Cas of 2LB Jars)

Manufacturer: Chemspec

Amped Enzyme Booster Additive

Boost the performance of Surge Traffic Lane Cleaner

Amped Enzyme Booster Additive boosts the performance of Surge Traffic Lane cleaner to tackle tough biological soils such as urine, blood and protein stains. Amped uses enzymes — substances that promote faster chemical reactions — that boost the ability of detergents and emulsifiers to attack and dissolve the soils commonly found in carpet, including food-based soils. Enzymes occur naturally, making them ideal for cleaning organic soiling.

Applications

Increases effectiveness of Surge Traffic Lane Cleaner. Safe on all types of synthetic, water cleanable carpets.

Benefits

Boosts cleaning power of Surge for difficult cleaning conditions. Especially effective for cleaning oil and protein-based stains and other organic contaminants.

Features & Benefits

- Utilizes enzymes to boost efficiency of Surge detergent action.
- Highly effective at dissolving soils and odors from cooking oils and greases, blood, urine, and protein stains.

>

- Not recommend for use on natural materials such as wool, cotton or linen.
- For use only with Surge Traffic Heavy Duty Lane Cleaner.

Specifications

Sold as

12/1 Case of 2-pound (0.9 kg) jars
