Clean Storm 87047810, All-Weather PVC Air & Cold Water Hose, 3/8in ID x 100 ft, 300 PSI, 1/4in MIP Ends

Description

The Clean Storm 87047810 is a premium, all-weather 3/8" ID x 100 ft hose engineered for high performance and durability in automotive work, interior finishing, and exterior painting applications. Constructed from tough, non-marring PVC reinforced with heavy-duty braiding, this versatile hose handles up to 300 PSI for both compressed air and cold water delivery. Equipped with solid brass 1/4" MIP fittings and protective bend restrictors, it resists kinking, abrasion, and terminal damage even under demanding job site conditions.

Key Features

- **Durable Construction:** Tough, non-marring PVC jacket with braided reinforcement for long-lasting reliability.
- **Dual Application:** Suitable for conveying both compressed air and cold water.
- **All-Weather Flexibility:** Lightweight design engineered to remain flexible in all weather conditions.
- **Heavy-Duty Fittings:** Features solid brass 1/4" MIP ends designed for secure, leak-free connections.
- **Kink Prevention:** Built-in bend restrictors extend hose lifespan by protecting connections from extreme flex.
- **Non-Marking Finish:** Exterior jacket (Black, Blue, or Orange) leaves surfaces mark-free during interior work.
