PMF U1515 Standard Upholstery Tool Open Spray 300Psi Brass Valve 1.5In Pipe Stainless Steel Side Shielded

Manufacturer: Production Metal Forming

PMF U1515 Open Spray Upholstery Cleaning Tool 300 PSI Brass Valve Stainless Steel Auto Detail Extractor Wand

The PMF U1515 Open Spray Upholstery Tool is a professional stainless steel extractor hand tool designed for automotive detailing, upholstery cleaning, stair cleaning, spot extraction, and furniture cleaning applications. Featuring a commercial-grade brass valve rated for 300 PSI, this lightweight open spray detail tool offers excellent visibility while cleaning heavily soiled fabrics and carpets. This professional upholstery cleaning wand is commonly used by carpet cleaners, automotive detailers, restoration contractors, janitorial companies, and facility maintenance professionals. The stainless steel construction resists corrosion while the brass valve assembly provides long service life and dependable trigger operation.

Benefits of Open Spray Upholstery Cleaning Tools

- Improved visibility during cleaning
- Easier flushing of heavy soil and contaminants
- Preferred by many automotive detailers
- Simpler maintenance compared to internal spray tools
- Lower operating cost and easier jet servicing
- Excellent for stairs, furniture, spot cleaning, and vehicle interiors
- Allows technicians to visually monitor spray pattern performance
- Great for heavily soiled commercial upholstery cleaning applications

Many professional technicians prefer open spray upholstery tools because they can better observe extraction performance while cleaning. Open spray systems also simplify jet inspection and maintenance compared to enclosed internal spray systems.

Applications

- Automotive interior detailing
- Car seat cleaning
- RV and boat upholstery cleaning
- Furniture upholstery cleaning
- Stair cleaning
- Spot and spill extraction
- Restaurant booth cleaning
- Office chair cleaning
- Hotel upholstery maintenance
- Commercial upholstery restoration

Why Choose A Brass Valve Upholstery Tool?

Brass valve assemblies are favored by many professional carpet cleaning and detailing contractors because they generally provide longer service life and improved durability compared to plastic valve assemblies. Brass valves tolerate heated cleaning solutions well and are easier to rebuild and maintain over time.

The PMF U1515 combines a stainless steel body with a brass valve design to provide a balance of durability, corrosion resistance, and professional cleaning performance.

Professional Automotive Detailing Tool

This upholstery extraction tool is extremely popular for automotive interior cleaning

>

because the open spray design allows detailers to closely monitor extraction performance while cleaning seats, floor mats, carpeting, door panels, and fabric surfaces.

Excellent for use on:

- Cars
- SUVs
- Pickup trucks
- Commercial fleet vehicles
- RVs
- Boats
- Aircraft upholstery

Frequently Asked Questions

Is open spray or internal spray better?

Open spray upholstery tools provide better visibility and easier flushing of contaminants while internal spray tools reduce overspray. Many automotive detailers and upholstery technicians prefer open spray tools for precision cleaning applications.

Can this tool be used with heated extractors?

Yes. The stainless steel body and brass valve construction are compatible with heated portable extractors and truckmount systems operating within pressure limits.

Can this tool be used for stair cleaning?

Yes. This tool is commonly used for upholstery, stairs, spot cleaning, automotive detailing, and furniture cleaning.

Does this tool work with truckmount systems?

Yes, provided system pressure does not exceed the rated operating pressure of the tool.

Why do professional detailers like open spray tools?

Open spray tools allow technicians to see the spray pattern and extraction path during cleaning, making it easier to identify heavily soiled areas and monitor cleaning effectiveness.
