Model Number: U1520

PMF U1520 Low Profile Upholstery Tool Open Spray V1245 Aluminum Valve Low Pressure Hose Whip 1.5Inch Pipe

Manufacturer: Production Metal Forming

PMF U1520 Low Profile Upholstery Tool &ndash; Open Spray, Aluminum Valve  
Part Number: U1520

The PMF U1520 is a lightweight, low-profile upholstery and detail cleaning tool designed for tight areas, furniture, auto interiors, stairs, cushions, and spot cleaning. The compact head and short handle make it easier to control than a full-size wand while still connecting to standard carpet extractor solution and vacuum hoses.

Best Uses

- Upholstery cleaning
- Auto detailing and RV interiors
- Stairs, cushions, corners, and tight spaces
- Spot cleaning with portable extractors or truckmounts
- Low-pressure upholstery cleaning applications

Key Features

- Low-profile design: Reaches into tighter areas than standard upholstery tools.
- Open spray pattern: Allows direct solution spray onto fabric or detail areas.
- 4 inch cleaning head: Ideal size for furniture, vehicle interiors, and detail work.
- 9 inch handle: Compact and easy to control.
- Stainless steel construction: Durable body for professional cleaning use.
- Aluminum valve: Designed for low-pressure applications up to 120 PSI.
- 1.5 inch vacuum tube: Common size for upholstery and detail extraction tools.

Vacuum Tube Size  
1.5 inches

Construction  
Stainless Steel Body

#### Important Pressure Note

This U1520 version uses a aluminum valve and is intended for low-pressure upholstery cleaning up to 120 PSI. For higher pressure cleaning applications, choose a brass valve upholstery tool rated for higher PSI.

#### Quick Disconnects Not Included

Quick disconnect fittings are not included with this tool. Please add the correct male, female, or male/female quick disconnect set to your cart if needed.

#### Why Buy This Tool?

The U1520 is a good choice when you need a simple, affordable, professional upholstery tool for lower-pressure extractors. Its low-profile stainless body helps clean areas where bulkier tools do not fit, while the open spray design gives the operator direct control over solution application.

#### Recommended Add-On Items

- 1/4 inch brass male quick disconnect
- 1/4 inch brass female quick disconnect
- Male/female quick disconnect set
- Horse hair upholstery brush
- Upholstery cleaning chemicals
- Vacuum and solution hose assemblies

#### FAQ

Is this a high-pressure upholstery tool?

No. This version has a clear hose for low-pressure use up to 120 PSI.

>

Will this work with portable carpet extractors?

Yes, provided your machine uses compatible vacuum and solution hose connections and operates within the tool pressure rating.

Are quick disconnects included?

No. Quick disconnects must be purchased separately.

What is the advantage of a low-profile upholstery tool?

It is easier to use in tight spaces such as auto interiors, furniture edges, stairs, cushions, and other detail areas.

Is this tool made for professional use?

Yes. PMF is a long-time manufacturer of carpet cleaning wands, upholstery tools, valves, and detail cleaning accessories made for the professional cleaning industry.

Horse Hair Brush with Comfort Grip Handle For Upholstery Cleaning

2026 Factory Update &ndash; Aluminum Valve Version

Factory production update for 2026: This upholstery tool is expected to include the V1245 aluminum valve instead of the older plastic valve.

Important pressure and heat limitation: Even with the upgraded aluminum valve, this tool still uses the clear solution hose with nylon reinforcement. The hose is now the weak link in the assembly.

For this reason, this tool should only be used with carpet cleaning machines operating under 120 PSI and with hot tap water only.

Do not use this tool with electric water-heater boosting machines, high-pressure heated extractors, truckmounts, or any machine that can exceed the hose temperature or pressure rating.
