PMF C15104B Curtain Drapery Perforated Tool 4in Bare No Valve 1.5 inch pipe AW60

Model Number: C15104B

PMF C15104B Curtain Drapery Perforated Tool 4in Bare No Valve 1.5 inch pipe AW60

Manufacturer: Production Metal Forming

PMF C15104B 4" Perforated Curtain / Drapery Recovery Tool - Bare, No Valve
Part Number: C15104B
Also referenced as: C15104, AW60
Tool Width: 4 inches
Connection: 1.5 inch vacuum pipe
Valve: None - recovery only
Professional Recovery Tool for Pre-Sprayed Drapes, Curtains, and Delicate Fabrics
The PMF C15104B is a 4 inch perforated curtain and drapery tool designed for recovery of pre-sprayed cleaning solution. This bare tool does not include a spray valve, solution line, or trigger. It is intended for cleaners who apply solution separately and then use this tool for controlled vacuum recovery.
The perforated vacuum edge helps prevent loose fabric from being pulled into the vacuum chamber, making it a smart choice for draperies, curtains, sheers, and other delicate fabrics where standard open-lip tools may be too aggressive.
Key Features

- 4 inch wide recovery head for curtain, drapery, and fine fabric cleaning
- Perforated vacuum edge helps reduce fabric pull-in and snagging
- Recovery-only design for use after pre-spraying
- Bare tool with no valve or spray system installed
- 1.5 inch pipe connection
- All stainless steel construction
- Made in the USA by Production Metal Forming / PMF

Best Used For

- Drapery and curtain cleaning
- Pre-spray and rinse/recovery cleaning methods
- Fine upholstery fabrics
- Delicate textile recovery where reduced fabric pull-in is desired
- Professional carpet and upholstery cleaning trucks and portables using 1.5 inch hose systems

Important Note
This is the bare recovery-only version. It does not spray cleaning solution. For a tool with a valve and solution line, select one of the valved curtain cleaning tool versions instead.
What You Get

- One PMF C15104B 4 inch perforated curtain / drapery recovery tool
- Bare tool only - no valve, no trigger, no quick disconnect, and no solution hose

- AW60

Optional Accessories

- Horse hair upholstery brush for delicate fabric agitation
- 1.5 inch vacuum hose and cuffs
- Pre-spray bottle, sprayer, or injection sprayer for applying cleaning solution before recovery

FAQ
Does this tool spray solution?
No. This is a bare, recovery-only tool with no valve or spray line.
Why use a perforated curtain tool instead of a standard upholstery tool?
The perforated edge helps reduce the chance of delicate fabric being pulled into the vacuum opening.
Can this be used on upholstery?
Yes, it can be used on some fine upholstery fabrics, especially when solution is applied separately and carefully recovered.
Is this stainless steel?
Yes. The tool is built with stainless steel construction, including stainless nuts and bolts.
Is this the correct tool if I want a trigger valve?
No. This C15104B version is bare and has no valve. Choose a valved version if you need on-tool solution control.
