Model Number: C15106B

PMF C15106B Curtain Tool Perforated Curtain Tool 6in Wand

Manufacturer: Production Metal Forming

PMF C15106B 6" Perforated Curtain Tool - Recovery Only, No Valve

The PMF C15106B is a 6-inch stainless steel perforated curtain and drapery recovery tool designed for use with carpet extractors. This bare recovery-only tool is used after the fabric has been pre-sprayed. It does not apply cleaning solution and does not include a valve.

Best Used For

- Recovering pre-sprayed cleaning solution from curtains and draperies
- Delicate fabrics where normal vacuum tools may pull material too aggressively
- Sheers, lightweight curtains, and fine upholstery fabrics
- Professional carpet cleaning and fabric care applications

Key Features

- 6-inch cleaning width
- Recovery-only design - no spray valve included
- Perforated vacuum edge helps prevent fabric from being sucked into the vacuum chamber
- All stainless steel construction
- Compact size for controlled detail work
- Made by PMF / Production Metal Forming

Important Notes

- This tool is for extraction recovery only.
- Pre-spray the fabric first, then use this tool to recover moisture and soil.
- If you need a curtain tool that sprays solution, choose a valved version instead.

Why Use a Perforated Curtain Tool?

Standard upholstery and vacuum tools can pull lightweight curtain fabric into the tool opening. The perforated edge on the PMF C15106B spreads out the suction contact area, helping reduce fabric pull-in while still allowing controlled moisture recovery.

#### Frequently Asked Questions

Does this tool spray cleaning solution?

No. The C15106B is a recovery-only curtain tool. Pre-spray the fabric first, then extract with this tool.

Does it include a valve?

No. This is the bare, no-valve version.

What makes it different from a normal upholstery tool?

The perforated vacuum edge helps prevent lightweight fabrics from being pulled into the vacuum chamber.

Is this stainless steel?

Yes. The tool is listed as all stainless steel construction.
