Model Number: C15104A

PMF C15104A Curtain Drapery Perforated Cleaning Tool 4in (Aluminum Valve) Wand AA176

Manufacturer: Production Metal Forming

PMF C15104A Curtain & Drapery Perforated Cleaning Tool - 4 Inch, 400 PSI Aluminum Valve

Part Number: C15104A / AA176

The PMF C15104A is a 4 inch perforated curtain and drapery cleaning tool designed to apply cleaning solution like an upholstery tool while helping prevent delicate fabric from being pulled into the vacuum chamber.

Features

- 4 inch wide perforated cleaning head
- 400 PSI aluminum valve with high pressure whip
- Perforated vacuum edge helps protect curtain and drapery fabric
- Stainless steel construction, including nuts and bolts
- Excellent for draperies, curtains, fine upholstery, and delicate fabric cleaning
- Connects to professional carpet cleaning extractors and truckmount systems

Why Use a Perforated Curtain Tool?

Standard upholstery tools can pull lightweight fabric too aggressively into the vacuum slot. This perforated design spreads vacuum recovery across the tool face, reducing fabric grab while still recovering cleaning solution.

Recommended Applications

- Curtain cleaning
- Drapery cleaning
- Fine upholstery cleaning
- Delicate fabric extraction
- Commercial and residential textile cleaning

Important Notes

- Quick disconnects are not included unless specifically added to the order.
- Confirm hose and quick disconnect compatibility before ordering.
- Special order or factory-built tools may require additional lead time.

Frequently Asked Questions

Does this tool spray cleaning solution?

Yes. This C15104A version applies cleaning solution like an upholstery tool.

Is this the recovery-only model?

No. The recovery-only 4 inch bare tool is PMF C15104B. This C15104A version includes a 400 PSI aluminum valve and high pressure whip.

Are quick disconnects included?

No. Quick disconnects are normally sold separately unless listed as included.

Can this be used on upholstery?

Yes. It is also useful for fine upholstery fabrics where reduced fabric pull is desired.
