PMF C15106A Curtain Tool Perforated Curtain Cleaning Tool 6in Wide 400 Psi Aluminum Valve 1.5Inch Stainless Pipe

Model Number: C15106A

PMF C15106A Curtain Tool Perforated Curtain Cleaning Tool 6in Wide 400 Psi Aluminum Valve 1.5Inch Stainless Pipe

Manufacturer: Production Metal Forming

PMF C15106A Wide Perforated Curtain Cleaning Tool
6" Wide Head • Aluminum Valve • 15" Stainless Steel Pipe • 400 PSI Rated
The PMF C15106A is a professional drapery and curtain cleaning tool designed for cleaning curtains, drapes, sheers, valances, and delicate upholstery fabrics. The wide 6" perforated vacuum head helps distribute airflow across the fabric instead of concentrating suction in one narrow slot, helping reduce fabric pull-in, distortion, and over-wetting.
This model includes a lightweight aluminum valve, 15" stainless steel pipe, and stainless steel construction for dependable field use with portable extractors and truckmount carpet cleaning machines.
Key Features

- 6" wide cleaning head for faster production than smaller curtain tools
- Perforated vacuum design helps protect delicate fabrics from being pulled into the tool
- 400 PSI aluminum valve for professional extraction cleaning
- 15" stainless steel pipe provides better reach and control
- Excellent for curtains, drapes, sheers, valances, and fine upholstery
- Stainless steel construction with stainless steel fasteners
- Made in the USA by PMF
- Compatible with most portable and truckmount extraction systems

Why Use a Perforated Curtain Tool?
Standard upholstery tools can create too much focused suction for lightweight fabrics. The perforated face on this tool spreads vacuum recovery across multiple openings, allowing the technician to clean delicate curtain material more gently while still recovering soil and moisture.
Recommended Applications

- Residential curtain and drapery cleaning
- Hotel and hospitality curtains
- Healthcare privacy curtains
- Theater, church, and auditorium drapes
- Fine upholstery and delicate fabric cleaning
- On-location cleaning where curtains remain installed

disconnect separately to match your solution hose and machine setup.
Professional Cleaning Tip
Always pre-test delicate fabrics for colorfastness, shrinkage, and texture change before cleaning. Use controlled solution flow, proper upholstery or drapery cleaning chemistry, and avoid over-wetting fabric that may be sensitive to moisture.
FAQ
Q: Is this the 6" wide version?
A: Yes. This C15106A model has a 6" wide perforated cleaning head.
Q: What is the difference between this tool and a standard upholstery tool?
A: A standard upholstery tool usually has a narrow vacuum slot. This curtain tool uses a perforated vacuum face to spread suction across the fabric, which is helpful on delicate curtains and drapes.
Q: Does this include quick disconnects?
A: No. Quick disconnect fittings are sold separately so the customer can match the tool to their own hose and machine setup.
Q: Can this be used with a truckmount?
A: Yes, provided the operating pressure is kept within the tool’s 400 PSI rating.
Q: Can I use this on upholstery?
A: Yes. It can be used on fine or delicate upholstery fabrics where a gentler, perforated vacuum design is preferred.

Production Metal Forming Inc. is the largest manufacturer of carpet wands, upholstery tools, valves and other accessories for carpet and upholstery cleaning industry. We created the patented Hide-A-Hose and the patented Internal Spray Detailer. We also make proprietary items for OEM manufacturers of the industry. PMF's reputation is built on first-rate customer service and quality products "Made in the USA."
Curtain Cleaning Tool 6in (Aluminum Valve)
C15106A-400psi, alum. valve

Applies cleaning solution just like an upholstery tool
Perforated vacuum edge prevents fabrics from being sucked into vacuum chamber
Great for cleaning fine upholstery fabric also
All stainless steel including nuts and bolts
Please note that the 6" tool will not have edge splash guards on them. The factory does not have a photo of the 6" wide tools.
