The PMF U1564SA No-Drip Internal Spray Detailer is one of the most popular professional upholstery cleaning tools ever manufactured. What Makes the No-Drip Design Different?
PMF's No-Drip Internal Spray Detailer places the spray jet inside the vacuum chamber rather than outside the tool head. This means cleaning solution is immediately contained and recovered, dramatically reducing overspray and helping technicians clean sensitive surfaces with greater confidence. The design also provides improved access to tight areas commonly found in automotive interiors and upholstered furniture.
