PMF U1564SB Detailers 4-1/2in Wide NO-DRIP Internal Spray Detailer 500Psi Brass Valve Hand Wand 1.5 Inch Stainless Pipe

Manufacturer: Production Metal Forming

PMF U1564SB No-Drip Internal Spray Detailer Hand Wand – 4.5" Wide, 500 PSI Brass Valve

The PMF U1564SB is a professional-grade upholstery and automotive detailing tool engineered for technicians who demand superior cleaning performance with virtually no overspray. Featuring PMF's original No-Drip Internal Spray Design, the spray jet is enclosed inside the vacuum chamber, keeping solution contained while providing exceptional recovery and improved access to tight cleaning areas.

Built from heavy-duty stainless steel and equipped with a forged brass control valve rated for up to 500 PSI, the U1564SB is ideal for upholstery cleaning, automotive interiors, furniture, mattresses, boats, RVs, aircraft interiors, and other delicate fabric surfaces. The 4.5-inch cleaning head covers more area than traditional 3.5-inch detail tools, helping technicians complete jobs faster while maintaining excellent extraction performance.

Key Features

- Original PMF No-Drip Internal Spray Design
- 4.5-inch wide stainless steel vacuum head
- Forged brass valve rated to 500 PSI
- Internal spray jet virtually eliminates overspray
- One-piece stainless steel solution tube and jet assembly
- Smooth rolled edges help protect delicate fabrics
- Adjustable vacuum relief for high-performance truckmount systems
- High-pressure 1-foot solution whip included
- All stainless steel construction including hardware
- Excellent visibility and maneuverability in tight spaces

Applications

- Automotive detailing and interior cleaning
- Upholstery cleaning
- Furniture and mattress restoration
- Boat and marine interiors
- RV and motorcoach interiors
- Commercial fabric partitions and office furniture
- Aircraft seating and interior fabrics

Advantages of Internal Spray Technology

Unlike traditional external spray tools, the U1564SB places the spray jet inside the vacuum chamber. This design helps eliminate over-spray while improving heat retention and recovery efficiency. The enclosed spray pattern also allows cleaning in confined areas where conventional upholstery tools cannot easily reach.
