Model Number: 81761

Pumptec 81761 Series 217V 085/M9253F Pump 120V 800 PSI Low flow Edic G14161

Manufacturer: Pumptec

Series 217V - 085/M9253F Pump 120 Volt 800 PSI

120 Volt, 800 PSI (recommended) Spray, '015 Nozzle (not included),
.61 GPM Spray, 2.7 AMPS Spray, 20 lbs

Does not include the bridge rectifier that converts AC current into DC Current. If you do not have a working rectifier to use with this motor and connect the leads directly to AC (house) current you will damage or destroy the motor. Warranty will not cover this type of damage. Used in some Sandia Plastic carpet and tile cleaning machines.

If you need to order a rectifier for this motor the following part number is also a live link to that product's page: C-REC-SM

Note: to use on a Kaivac machine you will have to remove the front pump face plate and use your original so the in and out water hole are in the middle of the pump. This is only two bolts and super easy to do.

Compare to current or past OEM associations: EDIC G14161

Optional

1/4in Mip X 3/8in Fip Brass Adapter Reducing BR166 9.804-007.0 Kaivac
CPS21 28193

If you're upgrading from a 204v, 205V, or 207V pump head to a 217V pump head, you'll need to add up to four brass adapters. The 205V/207V

>

models use 3/8" water ports, while the 217V is designed with 1/4" ports.
