Clean Storm AH95 Carpet Cleaning Stair Hose Hook with Adjustable Strap â€“ HA090B 8.697-100.0

Manufacturer: Clean Storm

AH95 Carpet Cleaning Stair Hose Hook with Adjustable Strap
The AH95 Stair Hose Hook is a simple but extremely useful accessory for professional carpet cleaners using vacuum hose and solution hose on stairways. Instead of allowing heavy carpet cleaning hoses to continually slide or pull back down the stairs, attach the AH95 to a stair handrail or other secure support point. The adjustable strap holds the hoses in position while you work, reducing hose drag and making stair cleaning easier.
Helps Keep Hoses Where You Put Them

When cleaning stairs or working on an upper floor, vacuum hose can gradually work its way back toward the bottom of the staircase with every cleaning stroke. The AH95 provides an easy anchor point to help keep the hose positioned near the top of the stairs.
It can hold a vacuum hose together with a carpet cleaning solution line and can also be used as a general-purpose hose stabilizer in other cleaning situations.
Benefits

- Helps prevent vacuum hose from sliding down stairs
- Reduces hose drag while cleaning staircases
- Helps keep vacuum and solution hoses together
- Helps reduce hoses rubbing against walls, corners, and stair edges
- Hooks conveniently over many stair handrails and other secure objects
- Adjustable hook-and-loop strap accommodates different hose sizes
- Coated metal hook helps protect the mounting surface from scratches
- Compact accessory stores easily in a carpet cleaning van or truck

Specifications

Steam-Brite Part Number
AH95

Product Type
Carpet Cleaning Stair / Handrail Hose Hook

Recommended Hose Range
Approximately 1-1/2" to 3"+ outside diameter

Steambrite Supply

Clean Storm AH95 Carpet Cleaning Stair Hose Hook with Adjustable Strap â€“ HA090B 8.697-100.0

Strap Size
Approximately 2" wide × 13" long

Strap Type
Adjustable hook-and-loop

Hook Diameter
Approximately 1/4"

Hook Opening
Approximately 2-1/2"

Hook Finish
Protective coated finish

How to Use

- Position the hook over a secure stair handrail or other suitable support.
- Place the vacuum hose and, if desired, the solution hose inside the adjustable strap.
- Secure the strap around the hoses.
- Leave enough hose below the hook to comfortably clean the staircase without excessive tension.

Tip: Position the hose hook near the upper portion of the staircase when cleaning from the top down. This helps prevent the weight of the remaining hose from continually pulling your working hose back down the stairs.
