Ball Valve 3000 psi 1/4in Female X 1/4in Female Brass Circle Seal Shut Off Valve Circle Seal
8.619-499.0 PWM-B147 114987

Manufacturer: Clean Storm

Circle Seal Ball Valve 3000 psi 1/4" Female X 1/4" Female Brass Shut Off Valve
Commonly used by most high pressure carpet cleaning equipment.
Circle Seal "O" ring style
Brass construction.

When attaching a new coupler you will need to order a Hex Nipple.

Installation Note: Use Teflon tape on the threads to ensure you have the best seal possible. It takes only two wraps of the Teflon tape over the threads to do the job.

Note: valve may not have a colored handle.

Please note the arrow of direction on the valve. If you hook it up wrong, this will make it not work and hold pressure back. Please follow the direction of the arrow stamped on the side of the brass. Even if you catch what you have done and used it backward and turn it back around, the damage is done. Must be used with correct water flow from the beginning.
