KleenRite 75002, Hose Mount Vacuum Booster, 6.6 Inch Extra Large High Performance, 70052

Model Number: 75002

KleenRite 75002, Hose Mount Vacuum Booster, 6.6 Inch Extra Large High Performance, 70052

Manufacturer: KleenRite

KleenRite 75002 Hose-Mount Vacuum Booster
6.6-Inch High-Performance, One-Stage Vacuum Motor Installed
Improve vacuum recovery on long carpet-cleaning hose runs with the KleenRite 75002 hose-mount vacuum booster. This professional vacuum booster connects directly between sections of 2-inch vacuum hose to help overcome airflow loss caused by longer hose runs.
The KleenRite 75002 is supplied with an installed 6.6-inch high-performance, one-stage vacuum motor. It is designed for carpet cleaners who need additional vacuum assistance when the extractor must remain in a vehicle, outside a building, on another floor or a significant distance from the cleaning wand.
Built-to-Order Product:
This machine is manufactured or configured after the order is placed. Please allow approximately 30 to 90 days for factory production and shipping. Production schedules are estimates and are not guaranteed delivery dates.
Key Features

- KleenRite factory part number 75002
- 6.6-inch high-performance vacuum motor installed
- One-stage vacuum motor configuration
- Designed for in-line installation between sections of vacuum hose
- Two-inch vacuum-hose inlet and outlet connections
- Helps improve airflow on longer carpet-cleaning hose runs
- Rotationally molded polyethylene housing
- Low-profile design for improved stability
- Rear transport wheels
- Pull-up transport handle
- Clear recovery-tank lid
- Vacuum-inlet debris screen
- Ball-float shutoff protection
- Bottom service-access plate
- Approximately 25-foot permanently attached power cord
- Standard 120-volt electrical configuration

How the Vacuum Booster Works
Vacuum performance normally decreases as carpet-cleaning vacuum hose becomes longer. Friction, hose bends, elevation changes and air leakage can reduce airflow before it reaches the cleaning wand.
The KleenRite 75002 installs in-line with the vacuum hose and adds powered airflow closer to the cleaning area. This can help improve water recovery when working with extended hose runs.
The booster assists only the vacuum-recovery side of the cleaning system. It does

KleenRite 75002, Hose Mount Vacuum Booster, 6.6 Inch Extra Large High Performance, 70052

not increase water pressure, solution flow or water temperature.
Recommended Applications

- Extended carpet-cleaning vacuum-hose runs
- Portable extractors operated from a van or trailer
- Multi-room residential carpet cleaning
- Commercial carpet-cleaning jobs
- Buildings where the extractor cannot be placed near the cleaning area
- Upper-floor cleaning applications
- Carpet, upholstery and hard-surface extraction systems using compatible hose

Product Specifications

Specification	Details
Manufacturer	KleenRite
Factory Part Number	75002
Product Type	Hose-mount vacuum booster
Vacuum Motor Diameter	6.6 inches
Vacuum Motor Configuration	High-performance, one-stage motor
Motor Installation	Vacuum motor installed by the factory
Standard Voltage	120 volts AC

Steambrite Supply

KleenRite 75002, Hose Mount Vacuum Booster, 6.6 Inch Extra Large High Performance, 70052

Vacuum-Hose Connections
2 inches

Power Cord
Approximately 25 feet, permanently attached

Housing
Rotationally molded polyethylene

Mobility
Rear wheels and pull-up transport handle

Production Status
Built to order

Installation
Install the KleenRite 75002 upright on a stable surface between two sections of compatible 2-inch vacuum hose. Confirm that the hose is connected to the correct inlet and outlet sides before operating the booster.
Keep the unit upright during use. Inspect the recovery tank, float shutoff, inlet screen, power cord and vacuum hoses before each cleaning job.
Electrical Requirements
Important Electrical Notice:
The carpet extractor and vacuum booster may need to be connected to separate electrical circuits. Two wall outlets in the same room may be connected to the same breaker. Verify the circuit arrangement before operating both machines.
Do not use an undersized extension cord. Voltage loss caused by an extension cord that is too long or too small can reduce motor performance, create excessive heat and damage electrical components.
What Is Included?

- One KleenRite 75002 hose-mount vacuum booster
- Installed 6.6-inch high-performance, one-stage vacuum motor
- Installed power cord
- Recovery tank
- Clear recovery-tank lid
- Vacuum-inlet screen
- Ball-float shutoff
- Rear wheels

Steambrite Supply

KleenRite 75002, Hose Mount Vacuum Booster, 6.6 Inch Extra Large High Performance, 70052

- Pull-up transport handle

Vacuum hose, hose cuffs, adapters, carpet extractor, cleaning wand and other accessories are not included unless specifically stated elsewhere in this offer.
Important Ordering Information
Order this product by the factory part number: KleenRite 75002.
The current factory price list identifies this model as being supplied with an installed 6.6-inch high-performance, one-stage vacuum motor.
Do not order solely by a photograph, motor appearance, label color or housing color. Manufacturers may change switches, fittings, labels, wheels, cords, motor suppliers or other components without changing the primary factory part number.
Special-Order and Cancellation Notice:
This is a built-to-order product. Orders cannot be canceled after the factory begins production. Please verify the model number, voltage, hose size and intended application before placing the order.
Frequently Asked Questions
What size vacuum motor is installed?
The current KleenRite factory price list states that model 75002 is supplied with an installed 6.6-inch high-performance vacuum motor.
Is this a one-stage or two-stage vacuum motor?
The current factory description identifies the installed 6.6-inch motor as a high-performance, one-stage vacuum motor.
Does the booster increase water pressure?
No. The booster assists the vacuum-recovery side of the system. It does not increase solution pressure, water flow or water temperature.
Will it work with every carpet extractor?
Not necessarily. Compatibility depends on vacuum-hose diameter, electrical requirements, extractor airflow and the intended hose length. Confirm your application before ordering.
Can the booster and extractor use the same electrical circuit?
They may require separate electrical circuits. Confirm the amperage requirements and circuit layout before operating both machines.
Does a vacuum booster guarantee faster carpet drying?
Improved airflow and water recovery may help leave less moisture in the carpet. Actual drying time also depends on carpet construction, humidity, temperature, ventilation, cleaning technique and air movement.
Is this item kept in stock?
This model is generally built to order. Allow approximately 30 to 90 days unless Steam-Brite provides a different current factory estimate.
Product and Image Disclaimer
Product photographs are provided for general identification and may show a previous production revision or optional equipment. Actual labels, colors, motors, switches, fittings, wheels, cords and other components may vary. Always order by the factory part number, voltage and written product specifications rather than relying solely on the image.

KleenRite 75002 Hose Mount Vacuum Booster 6.6 Inch Extra Large High Performance

Are you ready to Boost your cleaning to new levels? No need to worry about losing Vacuum Power with extended hoses when you have KleenRite's NEW High Performance Vac Boost.

Construction Features

Rotationally molded polyethylene base, tank and handle assembly.
4 inch rear wheels provide easy transport and maneuverability
Access plate underneath for easy servicing of all components

Benefits

Increased airflow of up to 135%
2 inch vacuum ports provide maximum airflow
Low center of gravity provides greater stability
Pull up handle allows for easy transport of unit
Vacuum filter screen and ball float shut-off restricts overflow into vacuum motor
Clear dome lid provides easy access to waste tank
25 foot permanently attached power cord
Allows portables to clean with hose runs of over 75 feet.
Compare to current or past OEM associations: 75001, 70052
Minimum shipping charge collected by this factory for this item is $80

Uses the following motor:
Ametek Lamb 122234-18 6.6 Vac Motor 120 volts
or similar
