Clean Storm 12049J, Replacement Goliath Bubble Style Waste Tank Lid with Connecting Rod

Clean Storm 12049J replacement Goliath bubble style waste tank lid engineered specifically for Goliath carpet cleaning machines and truckmount recovery tanks. This durable recovery tank lid restores proper vacuum seal, optimizes extraction efficiency, and ensures reliable wastewater management during heavy-duty commercial carpet cleaning operations.

Does not include: Gasket, L-Brackets, and Screws
Features

- Designed specifically as a direct-fit OEM style replacement bubble lid for Clean Storm Goliath waste tanks.
- Includes factory-matched connecting rod for seamless hinged installation and smooth lid articulation.
- High-clarity bubble dome profile provides instant visual monitoring of recovery tank water levels and foam accumulation.
- Heavy-duty molded construction resists high vacuum pressures, thermal stress, and chemical exposure from extraction detergents.

Applications

- Clean Storm Goliath Carpet Cleaning Machines
- Truckmount Recovery Tanks
- Commercial Carpet Extractor Waste Tanks
- Mobile Restoration and Water Damage Extraction Units

Tips and Additional Information

To ensure an airtight vacuum seal during extraction, inspect your existing tank gasket for cracks or flattening prior to installing the new lid. Clean any debris or residue off the tank rim to prevent suction leaks. When attaching the lid, align the included connecting rod carefully with your existing L-brackets and hardware to avoid binding or cracking the molded dome during opening and closing.

Frequently Asked Questions

Q: Does this lid come with a replacement gasket?

No, the Clean Storm 12049J includes the connecting rod only. Gaskets, L-brackets, and mounting screws must be retained from your original assembly or purchased separately.

Q: Will this fit other truckmount recovery tanks besides the Goliath?

This lid is specifically engineered for the Clean Storm Goliath carpet cleaning machine waste tank and may not provide a proper fit on other truckmount or portable extractor models.

Q: Why choose a bubble style lid?

The raised bubble or dome design provides extra vertical clearance for high-capacity

recovery and allows technicians to easily monitor wastewater levels and foam buildup without unlatching the cover.

Warranty & Safety Information

Clean Storm replacement parts are backed by standard manufacturer defect warranties covering material and workmanship flaws upon delivery. Warranty coverage is voided if the product is damaged due to excessive tightening of mounting hardware, impact damage from heavy equipment, exposure to incompatible harsh chemical solvents not rated for extraction tanks, or unauthorized modification of the connecting rod assembly.

Optional

Clean Storm 12062, Goliath Waste Tank Lid Gasket, Neoprene Seal, Carpet Extractor, 12049J
