Clean Storm 16 X 16 X 1 Disposable Air filters Case of 12

Manufacturer: Clean Storm

Clean Storm 16 X 16 X 1 Disposable Air filters Case of 12

Throw Away filters are disposable filters that are constructed with synthetic filtration media, designed for furnaces and central air systems. Our 'one-piece' frame is constructed by heavy chipboard. High bulk polyester fiber media is sealed within the frame. This design prevents the corners from separating.

UL Class 2 for flammability  
100% high bulk polyester fiber media
