LA#065 - Chestnut Brown

When you place your order, please remember to include the color name and number in the comment section at checkout.

#### COLOR SEALER

Modern Stone's Color Sealer is the premium solution for transforming old grout back to new and extreme protection against staining. Its advanced water based formula quickly bonds to grout lines to create an even and uniform color and appearance. The Color Sealer is an excellent choice if a change in grout color is desired. This product is available in most major grout manufacturer's colors. Maintenance: Use Modern Stone's Balance or other suitable neutral PH tile and grout cleaner.

Expected Wear: Up to 15 years. Unusually heavy traffic patterns may require periodic touch up to maintain uniform color and protection.

Grout Colors: We stock most of the major grout manufacturers colors such as Custom Polyblend, Mapei, TEC, and Laticrete. For complete list of manufacturers and colors are listed on bottom of this web page. Please specify color at time of ordering.

#### MSDS

#### BROCHURE

Average Coverage with squeegee method.

Modern Stone matches colors for the following major grout manufacturers. We use a computerized color matching process to each of these grout manufacturers color charts to ensure the colors are as accurate as possible. When selecting a color we strongly suggest picking the color from the grout manufacturers paper or plastic color chips.
