CFR 10445A-FR Perfect Heat Upright Extractor
Complete Starter System Starter Package

The CFR commercial line Perfect Heat model combine the Perfect Heat system with a powerful electric heater to produce
very hot water that is maintained throughout the cleaning process. No other system can maintain water temperatures as high as Perfect Heat Plus!

CFR commercial line extractors use two very high powered vacuum motors. These motors produce enormous amounts of heat. Perfect Heat technology captures this heat and uses it to heat the water used to clean the carpets. This unique process requires no additional electric power and is very simple and dependable. This process is so unique and so effective that it is being patented.

The CFR commercial line Perfect Heat model combine the Perfect Heat system with powerful electic heater to produce very hot water that is maintained throughout the cleaning process. No other system can maintain water temperatures as high as Perfect Heat Plus!

We conducted laboratory tests of the CFR Perfect Heat and two competitors. These competitors both claim temperatures of over 200?. Here are the real results in a realistic cleaning situation. Each machine was run for ten minutes. They were run in 8 second cycles with 4 seconds of spray and 4 seconds of rest. Every three minutes there was a 15 second rest. The temperature was recorded at the tip on the end of a 20’ solution hose.

See our website at www.Perfect-Heat.com for full test results.

Let CFR's Revolutionary Carpet Extractors:
* Reduce Dumps and Refills by Recycling Solution up to 7 times!
* Control Moisture Through Our Unique Moisture-Controlled Atomization Process
* Improve Carpet Dry-Times with Superior Moisture Recovery
* Dramatically Reduce Cleaning Costs

Moisture-controlled cleaning systems meet requirements of the U.S. Green Building Council LEED E-B. .

Perfect Heat™! Innovative new technology

Most carpet extractors use two very high powered vacuum motors. These motors produce enormous amounts of heat. Perfect Heat™ technology captures this heat and uses it to heat the water used to clean the carpets. This unique process requires no additional electric power and is very simple and dependable. This process is so unique and so effective that it is patent pending.

When used with a basic carpet extractor, “Perfect Heat™” heats the water to cleaning temperature with no electric heater. This provides a hot water extraction machine that runs on one cord at only 15 amps!

High-end carpet extractors combine the Perfect Heat™ system with a powerful electric heater to produce very hot water that is maintained throughout the cleaning process. No other system can maintain water temperatures as high as Perfect Heat™!

Extractors with Perfect Heat™ technology provide:
• Higher temperatures maintained throughout the cleaning process!
• Lower amperage requirements!
• Simple, dependable operation!

It’s not just Heat…It is “Perfect Heat™”
