HCR S29 Bio Enzyme Bacterial Concentrate 10x (10 times concentrated) - 5Gal Pail (12 Pail min Order)

Model Number: #S29*10X

HCR S29 Bio Enzyme Bacterial Concentrate 10x (10 times concentrated) - 5Gal Pail (12 Pail min Order)

Manufacturer: Harvard Chemical Research

Note - This is a factory direct item, and the cost is listed per single, but a 12 pail order is the factory minimum for order fulfillment

DESCRIPTION

A unique concentrated bacterial/enzyme product that, after dilution, is recommended for: Hospitals, nursing homes, schools, prisons, apartments, funeral homes, kennels, clinics, grease traps, drains lines, down pipes, porta-toilets, septic tanks, recreational vehicles, marinas, sump-pumps, and wet wells.

FEATURES
•Digest organic matter
•Neutralizes malodors
•Totally biodegradable
•Flexible applications
•Certified salmonella free
•Eliminates pet stains and odors
•Keeps pipes running free

INSTRUCTIONS
After product is diluted 10 to 1 it can be used in the following manner.

General Odor Control: To eliminate odor caused by vomit, spoiled foods, decomposed animals, animal waste in areas as garbage cans, waste receptacles, locker rooms, carpet, etc. Spray product directly on malodor and allow the bacterial action to digest the material while the pleasant fragrance immediately neutralizes the odor.

Carpet Deodorizing and Digesting Organic Waste: 1) Spot clean and vacuum carpet thoroughly. Mix 1/2 to 1 pint product per gallon of water. Apply with pump or hand sprayer. Keep moist at least 30 minutes. Repeat if odor persists. 2) Use in

conjunction with carpet cleaning equipment. Use 1/2 to 1 pint product to every gallon of mixed cleaner. Use with all types of carpet cleaning equipment and methods, including tank, brush, bonnet, and extraction cleaning.

Grease Traps: For traps less than 20 cubic feet capacity, add 4-5 oz. of product daily, by pouring in a sink or pipeline closet to the trap. This should be done at night or when the traps are used the least. After adding, flush down with a cup of lukewarm water. For grease traps larger than cubic 20 cubic feet, add 8-10 oz. daily using the same procedure.

Porta-Toilets: Add up to 1 gallon directly and cover the solids with water to aid digestion. Each time toilet is pumped, start treatment again with 1 gallon of product.

Septic Tanks: Add 1 pint per 25 cubic ft. capacity for the initial treatment again with 1 gallon of product. Thereafter, use 8 oz. per week. Pour directly into toilet and flush. If septic tank is clogged and odorous, add 1 gallon of product directly to the tank through the manhole.

Recreational Vehicles & Boats: Add 2 oz. per gallon as needed. for use at a dump station, use 1 gal. per 50 gal. of tank capacity. Then use 1 pint per week for maintenance.

Drain Lines & Down Pipes: Use product a minimum of 2 times weekly, to a maximum of 4 times depending on usage of the building. Add 4 oz. of product for each 2 inches of pipe size.
