Model Number: #S31

Harvard Chemical S31 Urethane Fortified Floor Finish Concentrate 36 pct. solids - 5Gal Pail 12 pail min order

Manufacturer: Harvard Chemical Research

Note - This is a factory direct item, and the cost is listed per single, but a 12 pail order is the factory minimum for order fulfillment

DESCRIPTION
A concentrated premium urethane fortified floor finish that has been used on thousands of square feet in grocery stores, convenience stores and retail shops exceed industry standards for durability, shine, and bounce back beauty. Dries to brilliant gloss and maintains easily with spray buffing or high speed burnishing. Product must be applied in thin coats.

FEATURES
- Urethane Fortified
- Concentrated
- Contains 36% solids
- Low or high speed buffing
- Non-corrosive, nontoxic
- Resists scuffing and harsh detergents

INSTRUCTIONS
Dilute product as needed to produce desired finish percentage, (Example: Dilute 2 to 1 to produce 18% finish), then used in the following manner:

Clean floor surface with a neutral detergent. If a stripper or alkaline detergent is used, rinse with clean water containing a neutralizer to insure proper coating and wear properties. Apply finish with an applicator or quality string mop generously without puddling to insure adequate protection and easy maintenance. For best results apply two or three coats, allowing polish to dry between coats (about 30 minutes depending on ventilation, humidity and temperature).

Porous surfaces should be sealed with an appropriate sealer or an extra coat of this finish. Maintain floor by daily sweeping or dust mopping. When necessary damp mop
