Clean Storm 32046, 1/8" MIP x 3/8" Hose Barb Forged Brass 90° Elbow, 32-036

Manufacturer: Clean Storm

Clean Storm 32046, 1/8" MIP x 3/8" Hose Barb Forged Brass 90° Elbow, 32-036

Description

The Clean Storm 32046 is a heavy-duty forged brass 90-degree elbow fitting designed for reliable, leak-free directional fluid and gas routing. Featuring a 3/8" hose barb on one end and a 1/8" Male NPTF (MIP) thread on the other, this fitting provides an exceptionally durable right-angle connection for tight spaces in pressure washing, carpet cleaning, air, and liquid transfer systems. Constructed from high-strength CA377 forged brass, it resists corrosion and handles severe operating conditions better than standard cast fittings. Take advantage of our Buy More, Save More pricing to stock up and save on bulk orders!

Features

- **Durable Forged Brass Construction:** Crafted from high-density CA377 forged brass for superior strength and pressure resistance.
- **Compact 90° Design:** Allows smooth 90-degree directional turns in tight equipment setups without kinking the hose.
- **Secure Connection:** Precision-machined 3/8" hose barb connects firmly to rubber or synthetic tubing when secured with a hose clamp, crimped ferrule, or similar clamp.
- **Standard Male NPTF Threads:** 1/8" Male NPTF (MIP) threads ensure a tight, dependable seal with matching female ports.
- **Wide Temperature Tolerance:** Engineered to withstand extreme operating conditions ranging from sub-zero cold to high-heat environments.
- **Bulk Savings:** Available under our "Buy More, Save More" tier pricing.

Product Specifications

Brand
Clean Storm

Part Number / SKU
32046 (32-046)

Parts & Accessories > Brass, Plastic, Steel, Stainless Hydraulic Fittings > Brass Fitting > Threaded X Barbed > Clean Storm 32046, 1/8" MIP x 3/8" Hose Barb Forged Brass 90° Elbow, 32-036

Clean Storm 32046, 1/8" MIP x 3/8" Hose Barb Forged Brass 90° Elbow, 32-036

Fitting Type
90° Forged Hose Barb Elbow

Connection 1
1/8" Male NPTF / MIP

Connection 2
3/8" Hose Barb (3/8" Hose ID)

Material
CA377 Forged Brass

Working Pressure
Up to 150 PSI Maximum

Temperature Range
-40°F to +160°F

Dimensional Tolerance
+/- 0.02" on all dimensions (subject to change without notice)

Recommended Fasteners
Hose clamp, crimped ferrule, or similar clamp type
