Clean Storm 32046, 1/8in Mip X 3/8in Hose Barb Brass 90 Elbow Forged, 32-046

Manufacturer: Clean Storm

Clean Storm 32046 Brass 90° Elbow - 1/8" Male NPTF x 3/8" Hose Barb
Buy More, Save More! \$

Description

Upgrade your fluid and air connections with the premium Clean Storm 32046 Forged Hose Barb 90° Elbow. Engineered for exceptional durability and leak-free performance, this heavy-duty brass fitting seamlessly transitions your setup between a 3/8" Inner Diameter (ID) hose and a 1/8" Male NPTF threaded port. Its forged brass construction ensures superior strength over standard cast fittings, making it ideal for demanding industrial, plumbing, and commercial pressure applications.

Features

- Forged Brass Construction: Made from high-grade CA377 forged brass for extra durability and higher resistance to fatigue.
- Space-Saving Design: 90-degree elbow configuration allows for tight bends, reducing strain on hoses in cramped enclosures.
- Versatile Application: Intended for use with a hose clamp, similar type clamp, or a crimped ferrule to ensure a secure, leak-proof seal.
- Extreme Temperature Range: Built to withstand operating environments from -40° F to +160° F.

Specifications

Part / SKU Number
32046 / 32-046

Brand
Clean Storm

Fitting Type
Forged 90° Elbow

Parts & Accessories > Brass, Plastic, Steel, Stainless Hydraulic Fittings > Brass Fitting > Threaded X Barbed > Clean Storm 32046, 1/8in Mip X 3/8in Hose Barb Brass 90 Elbow Forged, 32-046

Clean Storm 32046, 1/8in Mip X 3/8in Hose Barb Brass 90 Elbow Forged, 32-046

Connection Type

1/8" Male NPTF x 3/8" Hose Barb (Hose ID)

Working Pressure

150 PSI Maximum

Temperature Range

-40°F to +160°F

Material Composition

CA377 Brass (Forged)

Dimensional Tolerance

+/- .02 on all dimensions

Usage Note

Requires hose clamp, similar clamp, or crimped ferrule for proper installation.
