Clean Storm 32042, 3/8in Mip X 3/8in Hose Barb Brass 90 Elbow Forged, 32-042

Model Number: 32042

Clean Storm 32042, 3/8in Mip X 3/8in Hose Barb Brass 90 Elbow Forged, 32-042

Manufacturer: Clean Storm

Clean Storm 32042 - 3/8" NPT Male x 3/8" Hose Barb Brass 90° Forged Elbow Fitting

Description
The Clean Storm 32042 is a heavy-duty forged brass 90-degree elbow designed for reliable, leak-free directional transitions in fluid and air lines. Featuring a 3/8" Male NPTF connection on one end and a 3/8" Hose ID barb on the other, this commercial-grade fitting delivers exceptional strength and corrosion resistance. Engineered from high-density forged brass, it resists cracking and wear under demanding pressure and temperature conditions. Ideal for commercial cleaning equipment, pressure washers, carpet extraction systems, and industrial fluid transfer setups.

Features

- Forged Brass Construction: Crafted from high-strength CA377 brass for superior structural integrity and longevity.
- 90° Directional Change: Perfect for tight spaces and routing hoses around corners without kinking.
- Secure Barb Connection: Deep, sharp barbs ensure a tight seal when paired with a hose clamp, crimped ferrule, or similar retention system.
- Versatile Compatibility: Designed for standard 3/8" ID hoses and 3/8" Male NPTF threaded ports.
- Volume Discounts Available: Buy More, Save More tiered pricing option.

Specifications

Brand
Clean Storm

Part Number / SKU
32042 (32-042)

Clean Storm 32042, 3/8in Mip X 3/8in Hose Barb Brass 90 Elbow Forged, 32-042

Fitting Type
Forged Hose Barb 90° Elbow

Connection 1
3/8" Male NPTF

Connection 2
3/8" Hose ID Barb

Material (Forged)
CA377 Brass

Operating Temperature Range
-40°F to +160°F (-40°C to +71°C)

Maximum Working Pressure
150 PSI

Dimensional Tolerance
+/- .02" on all dimensions

Installation Note
Intended for use with a hose clamp, similar type clamp, or crimped ferrule.
